Objective

- Committed to professional integrity and collaborative excellence, I consistently deliver high-quality results within deadlines. An effective communicator and team player, I leverage strong technical skills to maintain precise, well-organized data systems. I am a detail-oriented professional dedicated to optimizing workflows and ensuring successful, positive project outcomes.

Education

Mount Carmel College

Bachelor of Computer Applications

-  2026

MVJ PU College

2nd PU (BASCs)

-  2023

Sharada Vidya Mandira

10th Std (CBSE)

-  2021

Key Skills

- Languages: JavaScript, Python, HTML5, XML.
- Web Development: React, Node.js, Express.
- System Architecture: Full Stack Development.
- Database: MongoDB, Mongoose, PostgreSQL.
- Tools: Linux, Git, JWT, REST APIs, Vercel/Render.
- Communication Skills: Professional & In strong command of English with a focus on professional correspondence and clear verbal articulation.

Projects

My Portfolio

- I built my personal professional portfolio website as a dynamic centralized hub to showcase my full-stack development journey, utilizing React, Vite, and Tailwind CSS to highlight standout projects like real-time applications and AI-driven tools while seamlessly weaving in my core expertise across modern web frameworks, database architecture, and responsive UI design. I deployed all my projects live on the internet using Render and Vercel to make them accessible for anyone to explore and test. All of my projects' live demo, Google Drive links, social links, certificates available to view in this portfolio.

DocSign Web App

- Developed DocSign, a full-stack web application built with React on the frontend and a Node.js and Express backend, designed to streamline secure document signing. The application leverages MongoDB and Mongoose for efficient data management, while ensuring robust security through JWT authentication and bcryptjs for password hashing. Key features include seamless file uploads managed via Multer, dynamic PDF manipulation using pdf-lib, and reliable API communication facilitated by Axios, resulting in a responsive and secure document-handling workflow deployed across Vercel and Render.

Espresso Voilà

- Developed Espresso Voilà, a full-stack web application built with React, Node.js, and MongoDB that enables coffee enthusiasts to explore artisanal recipes, brewing guides, and specialty roaster profiles. This project sharpened my expertise in building responsive user interfaces with Tailwind CSS, designing RESTful APIs, and managing database integration to deliver a seamless, interactive user experience.

SmartERP

- Built a secure, cloud-native full-stack application (Next.js, Node.js, PostgreSQL) to digitize inventory and ledger management, replacing manual tracking with real-time automated transaction processing via modern CI/CD pipelines.

AI Code Review Analyzer

- Developed an automated, AI-driven code review tool using FastAPI, LangChain, and Google's Gemini API to analyze performance bottlenecks and security vulnerabilities in real-time.

Interests

- Passionate about singing and dancing, fostering discipline and creative thinking.
- Dedicated to delivering polished, well-designed projects with clean and professional layouts.
- Passionate about fostering open dialogue by maintaining a calm, approachable demeanor and a gentle tone, creating a safe space for others to share concerns.

Achievements

- Certificate of participation on ICSISCDR@24, for the 2-day International Conference on Sustainable and Innovative Solutions in Cross-Disciplinary Research.
- Secured 2nd Place in Academia, a competitive program organized by the College Science Association.
- Served as a Core Team Member of the Christian Singing Association; performed as a Soprano/Alto vocal harmonizer and completed the Enrich Music Workshop.
- Actively attended high-impact technical workshops and seminars hosted by industry leaders such as Goldman Sachs and Techbyheart.

Summary

- I certify that the facts stated in this resume are true and accurate. Supporting documentation is available upon request.
