Objective

- Committed to professional integrity and collaborative excellence, I consistently deliver high-quality results within deadlines. An effective communicator and team player, I leverage strong technical skills to maintain precise, well-organized data systems. I am a detail-oriented professional dedicated to optimizing workflows and ensuring successful, positive project outcomes.

Education

Mount Carmel College

Bachelor of Computer Applications

- 📅 2026

MVJ PU College

2nd PU (BASCs)

- 📅 2023

Sharada Vidya Mandira

10th Std (CBSE)

- 📅 2021

Professional Experience

Prodigy InfoTech

Full Stack Development Intern

- Built 5 full-stack projects, including a Secure User Authentication, Employee Management System, Local Store E-commerce Platform, Real-Time Chat Application and Social Media Platform using modern MERN technologies and responsive front-end interfaces.

Future Interns

Full Stack Development Intern

- Developed 3 full-stack web applications, including my Professional Portfolio Website (A Must Check! ☑️), a Client Lead Management System and a Café Website, focusing on secure RESTful APIs and optimized database integration.

Key Skills

- Frontend: React, Vite, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB, Mongoose, PostgreSQL.
- Tools: Linux, Git, JWT, REST APIs, Vercel/Render.
- Communication Skills: Professional & In strong command of English with a focus on professional

correspondence and clear verbal articulation.

Projects

My Portfolio

- React, Vite, Tailwind CSS, Vercel, Render — Designed and deployed a responsive portfolio hub showcasing full-stack projects, live demos, and verified certifications. Built with a modern Tailwind CSS UI and continuously updated with new applications and technical resources.
-  <https://future-fs-01-three-jet.vercel.app>

DocSign Web App

- Developed a secure full-stack document-signing platform using React, Node.js, Express, and MongoDB, featuring JWT authentication, dynamic PDF manipulation via pdf-lib, and Multer file management for a seamless workflow deployed across Vercel and Render.

Espresso Voilà

- Developed Espresso Voilà, a full-stack web application built with React, Node.js, and MongoDB that enables coffee enthusiasts to explore the artisanal special menu of our cafe. This project sharpened my expertise in building responsive user interfaces with Tailwind CSS, designing RESTful APIs, and managing database.

Achievements

- Earned a Certificate of Completion and secured a Letter of Recommendation from Prodigy InfoTech for exceptional technical execution, rapid problem-solving, and delivering industry-standard software projects.
- Awarded a Certificate of Completion and received a Letter of Recommendation from Future Interns highlighting high technical competence, proactive collaboration, and the successful deployment of scalable features.
- Certificate of participation on ICSISCDR@24, for the 2-day International Conference on Sustainable and Innovative Solutions in Cross-Disciplinary Research.
- Secured 2nd Place in Academicia, a competitive program organized by the College Science Association.

Summary

- I certify that the facts stated in this resume are true and accurate. Supporting documentation is available upon request.
